Few families can bring so much tennis experience to a camp. Kevin and Kip's sister Kara also played for nationally ranked University of San Diego. The Brady's love tennis and they know what it takes to become champions. They truly enjoy helping others enjoy their tennis through their experience as players and teachers.

This is their **20th year** of Junior and Adult Camps, and they can give you the best of all of their experience. They strongly believe in the value of tennis camps as a motivating and learning experience.

### Tennis Tip From the Brady's... Hit the ball "On the Rise":

Many of our campers at Brady Tennis Camp are between the 3.5 and above. If you want to take your game to the next level, you need to hit the ball on the rise. To do this, you must anticipate a short ball with a strong split-step and get up to it so you can hit the ball at its peak before it comes down at around shoulder level. Then, get to the side of the ball, use a short backswing, and move through the ball. Don't overhit the ball. If you take it early, you will take time away from your opponent and placement is more important than power. You can follow your on the rise shot to the net to place added pressure on your opponent. Come to Brady Camp to see it, learn it, and take the ball and your game "on the rise!"

### WE WILL COVER:

Forehands & backhands	Consistency
Volleys	Footwork
Approach Shots	Attacking the net and finishing shots
Overheads	Taking ball on the rise
Serves	Helpful visual aids & mental imagery
Singles Strategy	Doubles strategy - poaching, court positioning
Match Play Feedback	Video tape analysis
